Education: B. Design Studies, Visual Arts,
Savannah College of Art and Design

what i do

motion graphics* 3 years

after effect, maya, everything

This is my favorite area where all my skills come together, where 3D, visual effects, illustration, and graphics design meet. Mix media shots, music videos, commercials. Passionate about creating and designing, I live, eat ,and sleep this stuff.

compositing 1 year

after effect, premiere pro

When it comes to visual effect I enjoy bringing live action and cg/visual out to live, taking actual elements out of an exiting footage in order to increase visual attraction.

visual effect 1 year

after effect, maya

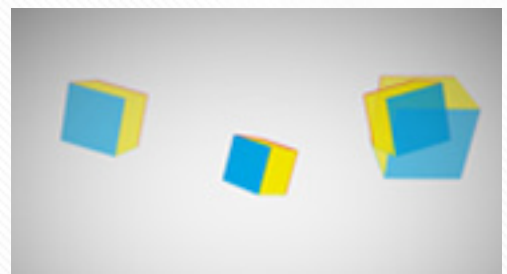

I use this to set the fun part, mood, backgrounds, particles, and complete 3d environments.

3d visuals 2 years

maya,mental ray, photoshop

It goes from modelling, lighting, inside environments, animation, and photorealistic looks. I enjoy creating anything that comes to my mind.

graphic design 6 years

photoshop, illustrator, indesign

I create ads, flyers, magazine compositions, editing, retouching, finishing and web-design.

I also like drawing, and I'm familiar and continuously learning with Shake, 3ds Max, C4D,Final Cut Pro, Pro Tools, Flash, Dreamweaver, Boujou, Vue 7.

jonathan salinas
